

Foldovation

Your personalised Foldo artwork — step by step

Your Access Token

FOLDO-XXXXXXXXXXXX

Keep this token safe — it is single-use and expires once you download your PDF.

How to use it

1

Open the app

Go to <https://yourdomain.com> in your browser.

2

Sign in

Enter your **email address** and paste your **access token** into the form, then click *Continue*.

3

Upload your 10 images

Click the upload area (or drag and drop) to add exactly **10 square images**. We recommend cropping them to a 1:1 ratio before uploading for the best result. You can use squareanimage.com for a quick free crop.

4

Choose a mapping

Browse the mapping gallery below your images. Click any thumbnail to apply that style to all 10 images at once, or use the dropdown next to each image to set a different style per image.

5

Preview

Click *Preview 10 Foldo Images* to see a side-by-side preview of your original and transformed images.

6

Download your PDF

Happy with the result? Click *Download PDF*. Your PDF will be generated and downloaded automatically. Your token is now used — if you need another session please contact us.

Tips for best results

- Use **square images** (1:1 ratio) — non-square images will be stretched to fit.
- Higher resolution images produce sharper output.
- Portraits and landscapes with a clear subject work best.
- Try different mappings in the preview — you can change them without re-uploading.
